Jan. 21, 1929

Mr. Herbert F. Wareing,
Instructor in Radio,
University of Wisconsin,
Milwaukee, Wisc.

Dear Mr. Wareing:

At the start of a new year it is customary to survey the records and achievements of the past and plan for the twelve months that are bound to arrive. To us, these months represent just an even dozen issues of QST, the material for which is undoubtedly in preparation at this time, however embryonic its stage may be.

As a contributor to QST, in the past we extend to you our heartiest thanks and appreciation of the important part you have played in the life of Amateur Radio. We would at this time be interested in knowing if you are planning to contribute further to QST during the months of 1929 in order that we may more accurately plan these forthcoming issues and reserve for your contributions the space their importance deserves. We hope you are making such plans. Your material in QST in the past has been most interesting and valuable to our readers -- most appreciated by us. We know that in your present activities and in the ideas you are revolving, there must be much that is of greater value and interest to us and to the radio amateurs of the world. We would be most interested in hearing of such from you.

Please accept our best wishes for 1929. May it be a happy and prosperous one for you.

Cordially,

Harold P. Westman
